40 YEARS
changing the world of ceramics

ABOUT US

Founded in Portugal in 1986, Fapor specializes in the manufacture and sale of utility tableware in earthenware, stoneware and terracotta.

In 2026 Fapor celebrates 40 years of existence. During all this years we've seen the company evolve, while mantaining the quality of the products, investing in good design and assuring ambiental and social responsability.
In this catalog we present you the 2026 ceramic collection!

40 years changing the world of ceramics

HOW IMPORTANT IS SUSTAINABILITY TO US

Including production waste in the factory process is a practice that the company has always been concerned about, even before we heard about sustainability.

Clay waste, baked shards and recycled glazes are incorporated into the process without compromising the quality of our pieces.

100%

recycled clay

100%

ceramic baked shards (90% going to other industries and the remaining 10% reintroduced in our paste)

50%

green electricity (from solar panels)

95%

water reuse

OUR MATERIALS

We have expertise in different types of techniques and materials, working with faience, stoneware and red clay. We are proud to say we master all three of these pastes and try to apply them into diverse collections with unique shapes and decorations.

Our production represents:

60%

faiance

30%

stoneware

10%

red clay

STONEWARE
